KITCHEN DESIGNED AND CUSTOM MADE

PACKAGE FINISHING OF THE INTERIOR CAN BE EXTENDED WITH DESIGNED AND MADE TO MEASURE KITCHEN FURNITURE.

THIS IS A PERFECT OPTION FOR PEOPLE WHO WANT A KITCHEN TAILORED TO INDIVIDUAL NEEDS: ARRANGED ACCORDING TO TASTE, MADE TO MEASURE BY A CARPENTER AND FULLY EQUIPPED.

Finishing the kitchen includes all the works that make up the kitchen to size, including: arrangement and visualization of the kitchen, necessary changes to the electrical and hydraulic network, construction and assembly of the built-in, connection of selected models of household appliances from any manufacturer.

IN THE CASE OF KITCHENS DESIGNED AND MADE TO MEASURE, THERE ARE NO PRODUCTS AND MATERIALS LIMITATIONS

The final price depends on the materials used, equipment products and the size of the building. For details on additional design options, custom-made kitchen furniture and full kitchen equipment, please contact us.

FINISH STANDARD FOR KITCHEN

KITCHEN FINISH

Finishing the floor surface with stoneware or panels. Wall tiles between worktop and upper cabinets. Grouting in one color.

Implementation of a ready set of kitchen furniture, which includes the production and assembly of the following elements:

Upper cabinets:

- cabinet with shelves 60 cm;
- cabinet with shelves 45 cm;
- cabinet for building the hood 60 cm;
- cabinet with shelves 60 cm;

Lower cabinets:

- sink cabinet 60 cm;
- cabinet with 45 cm;
- oven cabinet 60 cm;
- cabinet with shelves 60 cm

Purchase and installation of Amica ADG equipment presented in the catalogue:

- oven,
- hotplate,
- hood,
- dishwasher,
- optional fridge (depending on the selected option).

Adding elements and equipment of additional modules (i.e. fridge, corner) is additionally payable and consists in individual pricing.

Other kitchen configurations, in the case of the option of designing and making a custom-made kitchen for individual pricing.

DEVELOPMENT STATUS IS ADOPTED AS:

- finishing walls and ceilings with gypsum plasters;
- finishing the bathroom walls with cement-lime plaster;
- installing a ventilation system with a ventilation grille;
- installation of electrical and electrotechnical installations with complete accessories;
- installation of water and sewage systems, connections to devices;
- installation of internal window sills;
- preparation of door openings for the installation of standard doors with an adjustable door frame (width up to 80 cm, height 200 cm - opening in the wall min. 88 cm, max. 92 cm wide, min. 206 cm, max. 210 cm high) from the floor in the developer's standard;
- access to a working elevator (for apartments located on the first floor). In the absence of access to the elevator or two-story houses, an additional fee for the transport of materials is expected;
- it is assumed that the planes of walls, floors and ceilings as well as the angles between them are made in accordance with the building standard;
- it is assumed that the humidity of the screed and plasters is suitable for carrying out renovation and finishing works.

In the event of non-compliance of the apartment standard with any of the above arrangements, the contractor will make a separate and individual valuation of works outside the package.

FINAL INFORMATION

The presented offer is informative and does not constitute an offer within the meaning of Art.66 par.1 of the Civil Code.
